## Walker a good choice for San Anselmo council seat

---

I write in support of Chantal Walker in the race for a seat on San Anselmo Town Council in the November election.

I have known Walker for over 20 years. She approaches challenges with optimism and a can-do attitude. She will bring creative problem-solving skills to her role as a council member, as she has done in her roles as a Marin Community Fund program officer, Marin County Library leader, human resources leader and nonprofit executive.

Walker cares deeply about the vitality of San Anselmo and our planet. She has lived in San Anselmo for 10 years. I know she feels blessed to have raised her family there. She will make policy decisions based on what is best for future generations and the preservation of our Earth.

In reading her platform, I know she understands the importance of balancing the need for affordable and sustainably built housing, as well as preserving San Anselmo's quality of life. She also understands the vital role that small businesses play in preserving the health of San Anselmo.

In these divisive times, Walker will bring critical skills to the Town Council with her keen listening skills, as well as her collaborative and inclusive abilities, to bring people together around shared values and visions. Her list of endorsements is significant. Learn more [chantelforsananselmo.org](https://chantelforsananselmo.org).

Please vote for Chantal Walker for San Anselmo Town Council.
